

## The National University of Singapore Department of Civil & Environmental Engineering

### Faculty Positions in Geotechnical Engineering

The Department of Civil & Environmental Engineering, National University of Singapore (NUS) invites applications for tenure-track faculty positions in Geotechnical Engineering, on areas related to Urban Sustainable Development and Climate Change. The candidate should hold a doctorate in civil engineering, preferably with background and experience in, but not limited to, one or more of the following geotechnical domain expertise: underground space, land creation, sustainable geo-materials and coastal resilience. Additional skills and knowledge in data analytics and machine learning will be highly advantageous. Relevant industry experience and professional qualifications (e.g. professional engineer) will be considered favorably. The opening is at the Assistant Professor or Lecturer level. Exceptionally well qualified applicants may be considered at the Associate Professor level.

Postdoctoral experience is highly desirable. The successful candidate must be able to teach effectively in English at both undergraduate and graduate levels and develop an active research programme.

NUS offers internationally competitive remuneration, relocation assistance and other benefits. Newly recruited tenurable faculty members are eligible for start-up grants to facilitate the establishment of their research and development in NUS. Details of terms and benefits are available on <http://www.nus.edu.sg/careers/whatyougettoenjoy.html>.

Interested candidates should send their detailed curriculum vitae, copies of transcripts, statements of research and teaching interests and professional goals, and the names of three referees to:
