

Lecturer in Geomechanics

University of Southampton -Infrastructure Research Group

Location: Highfield Campus

Salary: £35,244 to £44,607

Full Time Permanent

Closing Date: Thursday 18 April 2013

Interview Date: Wednesday 08 May 2013

Reference: 220813AT

This post is based in the Faculty of Engineering and the Environment and the key responsibilities include:

- Contributing to undergraduate and postgraduate teaching within the Faculty, particularly within the Civil and Environmental Engineering programme.
- Conducting world class research in geomechanics and supervising research students.
- Publishing high-quality journal papers and building a strong international profile through involvement in key international conferences.
- Devising research projects to seek and win external funding.

You will be expected to hold undergraduate and postgraduate qualifications in Civil Engineering or a related discipline. Membership of a relevant professional institution is desirable. Ability to contribute to the educational programmes in the Faculty is considered important, as is a strong track record of research, with particular emphasis on geomechanics and environmental geotechnics.

Informal enquiries can be made in the first instance to the Head of the Infrastructure Group, Professor David Richards: djr@soton.ac.uk, or the Head of Civil, Maritime and Environmental Engineering and Science, Professor John Preston: jpreston@soton.ac.uk.

The closing date for this post is 18 April 2013. Please apply online through www.jobs.soton.ac.uk or alternatively telephone 023 8059 2750 for an application form. Please quote vacancy reference number 220813AT on all correspondence.

Further details: We aim to be an equal opportunities employer and welcome applications from all sections of the community. **Please note that applications from agencies will not be accepted unless indicated in the job advert.**
