Faculty Tenure Track Position

**Faculty position in Geotechnical Engineering at
Northwestern University**

The Department of Civil and Environmental Engineering at Northwestern University invites applicants for a tenure track faculty position in geotechnical engineering. Areas of interest include, but are not limited to, soil-structure interaction, numerical modeling (emphasizing coupled multi-physics processes such as thermal, hydraulic, chemical and mechanical interactions), geomechanics, retaining structures and geotechnical earthquake engineering. This position is tenure track at the assistant or associate professor level. Candidates should have a Ph.D. in Civil Engineering or related fields, the ability to establish a well-funded program of independent and collaborative research, and strong teaching skills.

Applications should be submitted electronically via the link below. Applications must include a cover letter, curriculum vitae, statements of research and teaching interests, and a list of at least three referees with contact information from whom letters of recommendation can be requested. Application materials should be submitted to the search committee via the website. Review of applications will begin October 1, 2015, and will continue until the position is filled.
